

OSI NEWSLETTER #5

Meet us here

Marketing advisors routinely recommend 'networking' as a productive strategy. It is also a key to personal and professional satisfaction. The internet has made possible an interesting and fast-spreading networking system, called 'meet-ups'. Internet mediated 'meet ups' are now dotting the globe. The Presidential campaigns used the system effectively. For more information on this new global phenomenon, go to <http://www.meetup.com>.

As a member of O.S.I., you have a downtown site to host a meet-up of interest to you. We will host one meet-up for free each week, on Saturday, 2-5 PM. At other times, the rate will be \$15 per hour for the sponsoring member (a little higher than on some plans, because of the anticipated larger than average meeting size.) Let us know a few days in advance so we can schedule you. For a free meet up, best call soon.

Meet more people: share your interests: do so in a professional setting attractive to all.

O.S.I -- Your Hedge Against the Financial Slowdown

Though the Greater Washington area is historically recession resistant, we all are aware that the economy as a whole is expected to run a bit slower for a while. You have had the good judgment to use the most economical officing system in this, or any other, area. With O.S.I. you can do more for less than with any other officing system. O.S.I. is a good place to be -- a valuable asset -- in bad times. Pat yourself on the back for using uncommon intelligence in your officing arrangements.

Leverage our membership

O.S.I. has over 600 members. Our members include lawyers, accountants, computer consultants, political consultants, mental health professionals, home repair companies, international trade companies, financial consultants, and many more specialties.

Why not take advantage of this pool of expertise under our own roof, so to speak. If you have a need, email manager@osioffices.com with a brief (@30 seconds when read) statement of your need and contact information. We will distribute it to all our clients having phone and voicemail services.

We Can Do More For You

We pride ourselves on the flexibility and economy of our officing system. We try to provide you just what your business needs -- no more and no less. A part of that system is providing you options which come in handy. We have built into the system several features which you may not have considered recently. You can have multiple voice mail boxes, more than one telephone number if you have divisions or subsidiaries for which you want a separate phone answer, call forwarding, emailing of voicemail, and other options.

Why not take another look at our spread of services at www.washoffice.com, or, better, call our manager to discuss how your business works, what it needs and how we can help you. Call Wil at 202 835 0680 for a consult.

Suntrust Banking

We have worked out an arrangement with Suntrust which provides our members banking arrangements they usually reserve for employees of large corporate clients. Included are free check cards, credit cards with no annual fee, free identity theft and credit protection monitoring, access to loans, lines of credit, retirement service management, and more. Call Wil at 202 835 0680 to be involved in scheduled meetings of our clients with Suntrust representatives.
