*Quote Of The Month*

"Several years ago I retired from my full time solo private practice as a psychologist in Washington, D.C. and wanted to keep my license to practice active but only wanted to have office hours on a very limited part time basis. I finally found just the kind of flexible office hours and service arrangements that fit my needs perfectly and provided as many of the additional office support services that I either wanted or need for my own particular needs at a very reasonable cost. OSI and myself work worked out an office service plan that fit my needs perfectly. I have been a very satisfied customer with their services and would recommend OSI to anyone needing part time or permanent office services." Joseph H. Quintano, Ed. D. Psychologist
